For Online and Combined print/online subscriptions, please also consult our site licenses at [karger.com/pages/terms-and-conditions](https://karger.com/pages/terms-and-conditions)

### Ordering

Journal subscriptions as well as Collection and Package orders can be placed at any bookstore, subscription agency, directly with Karger Publishers, or a Karger representative.

Contact details of the Karger offices and representatives can be found at [karger.com/pages/contact-and-support](https://karger.com/pages/contact-and-support). Every journal homepage offers an order form to print out or fill in online. Orders can also be emailed to [orders@karger.com](mailto:orders@karger.com).

### Prices

All prices are based on Swiss Francs and subject to change. Prices in EUR are valid for eurozone countries only, prices in USD are valid for the USA and Latin America only. Prices quoted do not include delivery charges and are excluding VAT and local sales tax. Where required, VAT is applied at the appropriate rate and shown separately on the final invoice.

### Subscribe to Open – Pilot

After a successful first year, we are continuing our "Subscribe to Open" pilot with the journals Pediatric Neurosurgery and Developmental Neuroscience. If subscriptions are renewed, we make that year's volume of the journals Open Access and publish the articles Open Access without levying APCs. Subscribers who participate in the pilot receive a 5% discount off the year's subscription price. For more details please contact your Karger representative.

### Subscription Period

The annual rate covers a full journal subscription year (all volumes assigned to the respective year of publication). New subscriptions placed during the year will begin with the delivery of the first issue for that subscription year. An online subscription allows access only to issues published in the subscription year. For assistance, please contact our help desk at [service@karger.com](mailto:service@karger.com).

### Authorized Access

Access is regulated via IP address(es) and/or user ID/password. Karger supports both Shibboleth and OpenAthens.
